

## JOHN KERRY on the ECONOMY

“It’s time for [President Bush] to admit his tax cuts aren’t working and change course. I am running for President to put jobs back at the top of our national agenda . . . to put Americans back to work, and put America back on track.”

Senator John Kerry has and will:

- Put Relief for Workers ahead of tax breaks for big corporations
- Pass a Real Recovery and Stimulus Package that would aid the unemployed, create jobs, and reinvigorate businesses
- Make Sure Venture Capital is made available to small businesses in distressed and rural areas to create jobs and growth
- Support Career Centers to provide job hunting and services for the unemployed
- Ensure Business Opportunities are provided for women- and minority-owned small businesses
- Provide Emergency Relief to small businesses affected by increased oil and gas prices

**John Kerry is a member of the Senate Finance Committee and is the Ranking Democrat on the Small Business and Entrepreneurship Committee**
